Kick off meeting run between 23-25 April 2019, in Chisinau, Republic of Moldova. The meeting gathered representatives of the partner organizations to discuss a range of issues related to the entire project implementation and set a reliable and professional tone of future partnership. It was presented the project background, its concept, and the structure leading to the achievement of project objectives. Was emphasized the need to develop innovative and practical tools used within the entrepreneurial learning both in formal and non-formal education.

Another important aspect was to set and agree on responsibilities, roles, tasks and the way each partner contributes and gets involved into international and local events. The financial distribution and financial documentation linked to planned activities was committed, based on the grant agreement and the information presented by the EACEA within the Kick of Meeting with beneficiaries.

To further explore the subject of the project, was organized a meeting with young people representing public sector as the Ministry of Education and Youth, Ministry of Finance, Ministry of Economy etc. The Partners have joined the networking platform and could explore the national reality in the field of entrepreneurship and education promoted by different entities. Together they played different board games and discussed the impact of the games on the quality and participation of youth in the educational system.
